Waterinsoluble.
Manufactured to resist rust, oxidation, extreme pressures.

HEAVY-DUTY RED GREASE
This durable "red" grease is ideal for high-wear applications.

Industrial Grease
Heavy-Duty Red Farm/

MULTI-PURPOSE LITHIUM GREASE
Automotive and industrial applications. Perfect for chassis and U-joints that require frequent regreasing.

Model | Quantity | Size |
--- | --- | --- |
G802 | 1 cartridge | 14 oz. |
G800 | 4 pack | 3 oz. |
G801 | 6 pack | 2 oz. |
G802 | cartridge | 14 oz. |

G801 MINI METRIC
Quantity | Description |
--- | --- |
2 | bares 1 x 10" |
2 | bares 1 1/4 x 10" |
2 | bares 1 1/2 x 10" |

G801 DELUXE METRIC
Quantity | Description |
--- | --- |
8 | 1/2 NC, straight or left hand |
8 | 1/2 UNF, straight or left hand |
8 | 3/8 NC, straight or left hand |
8 | 3/8 UNF, straight or left hand |

Grease Fittings
Guardian fittings are engineered for automotive, industrial and farm applications.

DOMESTIC CAR FITTINGS
Quantity | Model | Description |
--- | --- | --- |
90 | G100 | 1/4" straight or left hand |
90 | G101 | 1/4" straight or left hand |
90 | G102 | 1/4" straight or left hand |
90 | G103 | 1/4" straight or left hand |
90 | G104 | 1/4" straight or left hand |
90 | G105 | 1/4" straight or left hand |
90 | G106 | 1/4" straight or left hand |
90 | G107 | 1/4" straight or left hand |
90 | G108 | 1/4" straight or left hand |

G100 LEVER ACTION
G101/G103 HEAVY-DUTY PISTOL GRIP
"The Bulldog" was designed to take punishment! Same as G100 plus filler nipple for 3-way loading; ball, filter pump or cartridge. Rigid barrel allows more force on pump head, eliminates cross-threading.
G112/G113 HEAVY-DUTY PISTOL GRIP
Zinc die-cast head with 4" rigid pipe extension and coupler (G113 equipped with 18" flex hose extension and coupler). One-hand operation. Uses standard 14 oz. cartridge or car can body. Features heavy-duty steel barrel, electrostatic, corrosion-resistant cross-thread, and no-drip brushing. Flex hose follower rod with 1 handle provides cross-threaded grip and easy filling at any position.

G110 MINI PISTOL CRIP
Zinc die-cast head with 4" rigid pipe extension and coupler. Standard 3 oz. greases cartridges. Compact and lightweight. The G110 is the perfect tool for smaller, less frequent lubrication projects.

G120 AIR-OPERATED PISTOL CRIP
Especially good when designing equipment or operation. Rigid stainless steel barrel for long life. Hardly 3-way loading. 1/4" NPT air inlet. Develops up to 4000 psi operating pressure. Input pressure of 40-120 psi.

G100 SUCTION GUN
10 oz. capacity with 12" hose. Perfect for dispensing and filling differential, clutches, power steering reservoirs and transmissions. Heads on any printing. Features heavy-duty steel barrel, electrostatic, corrosion-resistant finish and non-slip handle.
