

## Mityvac Diesel Compression Test Adapters for Ford & Mercedes

### *Two new test adapters for the latest engines!*

Mityvac now offers two new diesel compression test adapters MVA5610 and MVA5624 for use with our diesel compression testers and test kits MV5534, MV5535, and MV5536.

Glow Plug Adapter MVA5610 is designed for testing the engine cylinder compression of Ford Power Stroke 6.0L and Navistar/International VT365 6.0L diesel engines. It conveniently installs in place of the cylinder's glow plug by threading directly into the glow plug port.

MVA5610

Injector Adapter MVA5624 is designed for testing the engine cylinder compression of Mercedes-Benz/Detroit Diesel MBE 900 and MBE 4000 engines. The adapter installs in place of the injector, and includes the required hold-down clamps and bolts.

MVA5624

Both adapters are available immediately from Mityvac, and are designed to work with Mityvac, Snap-on® and Star Products® brand diesel compression testers.

For more information contact your local Mityvac sales representative, visit us online at [www.mityvac.com](http://www.mityvac.com), or call 314-679-4200 Monday thru Friday 7:30 am to 4:15 pm CST.
