

# **Lincoln LFC 5000** **ADP Interface**

Benefiting owners, service managers and parts managers, the LFC 5000 system saves time and money through automatic billing and by creating a smooth flow throughout the garage. Customize the LFC 5000 system to allow mechanics controlled access to lubricants and other fluids without leaving their bays.

The Lincoln LFC ADP Interface confirms valid and open repair orders on your dealer management system. Dispense events are captured instantly and automatically to eliminate manual entering and errors. Accounting functions are completed accurately on the repair order and invoice, recording inventory depletion and eliminating lost billings. The system simultaneously controls and monitors up to 32 fluids and 300 dispensing locations and creates reports by product, user, customer or location.

***"Our efficiency and productivity with the Lincoln system has been amazing. The installation was flawless, and the system is fail-safe. It documents exactly what we need and interfaces with our ADP (management) system, so we're happy with the results and the cost savings."***

**CONTROL LUBRICANTS USING YOUR  
DEALER MANAGEMENT SYSTEM**

# **Lincoln LFC 5000** **ADP Interface**

## **CONTROL LUBRICANTS USING YOUR DEALER MANAGEMENT SYSTEM**

***"Lincoln's ability to combine lubrication and fluid control into our ADP dealership management system has increased technician efficiency and decreased inventory shortages. Lincoln's LFC5000 increased security by uncovering a 15% billing discrepancy and has eliminated missed billings since its installation. Over the past three years, Lincoln has increased the profitability of our bottom line making the investment in this system well worth it."***
