

Lincoln Lubrication Solutions: No. 1 Worldwide

From just a few lubrication points to several thousand—
we offer products, systems and service for customers
around the world

Experience Productivity

Innovative standards for lubrication systems since 1910

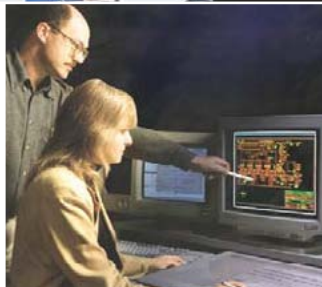

For systems and machines in all industries including commercial vehicles, construction and mining equipment, production lines, conveyors, steel manufacturing, cements plants, pulp and paper mills, food and beverage facilities and much more.

From consulting to parts service in more than 90 countries around the world

The right solution for your company

- Manual and automated turnkey lubrication systems for your special application
- ORSCO high precision oil lubrication systems for air tools, manufacturing and assembly lines and conveyor chains.
- Pumps and pump stations for transferring thick fluids such as ink, adhesives, sound deadeners, silicone and other viscous materials

Over 1000 dedicated people worldwide work for Lincoln Systems

Quality and Service are our strengths

With five technical support centers on three continents, and a network of systems houses and distributors supported by regional sales and service offices, our customers can always draw on our worldwide resources.
