

ORSCO® Series 200

Custom Designed Oil Lubrication Systems

The ORSCO systems are a long term financial investment for your applications. With a short return on investment, the ORSCO system is an ideal solution for your lubrication needs.

ORSCO® Series 200

A Fully Customized System For Unlimited Lubrication Points

System Features

- Basic fault monitoring
- Unlimited lubrication points
- Lubricant volume adjustment capabilities
- Spray nozzles operate with regulated air pressure as low as 5 psi (.35 bar)
- Dispenses lubricant exactly where it's needed—even hard to penetrate areas
- Continuous delivery or intermittent operation

The Series 200 system is a customized package designed for unlimited lubrication points.

Dimensions

Size: Varies per the number of nozzles required

Fault Monitoring

- Low oil reservoir fault
- Low air pressure for the system

Nozzles

ORSCO's patented precision spray nozzles apply lubricant with a unique non-misting air-oil blend for maximum effectiveness. Nozzles are available as a standard or custom designed specific for the particular application.

Typical Applications

- Assembly lubrication
- Accurate, clean delivery of most fluids
- Chain lubrication, etc.
