

Introducing Lincoln's New Line of Oil Bar and Spigots.

Offering includes a 3 spigot capable metal oil bar in a compact new design. Two different spigot variations are available to choose from that have a locking or non-locking handle. The locking version is ideal when used with a LFC5000. The oil bar has punch outs to add a digital 812 meter if the user wants to see the quantity being dispensed. A flow control valve is also offered to control the flow at the spigot.

Lincoln Part Number	Description	List Price USD	Product Code
84951	3 Spigot Capable Metal Oil Bar (does not include spigots)	\$387.83	GL-
